BASIC SLIME RECIPE

EASY SLIME RECIPE

This is an awesome, versatile recipe for any of your favorite slimy Halloween themes. It also handles mix-ins very well!

For extra stretchy slime, we suggest not putting in too much saline until you have spent some time kneading your slime.

SALINE SOLUTION SLIME RECIPE

Mix 1/2 cup of white or clear washable school glue (Elmers is our favorite) with 1/2 cup of water.

Add a 1/2 tsp of baking soda

Add food coloring and mix-ins like confetti or foam beads

Stir in 1 tbsp of saline solution until slime forms. We recommend Equate or Target brand saline solutions (not contact solutions). You may find you need a few drops more.

Knead slime to desired consistency. Squirt a few drops of saline onto hands to help reduce stickiness. Saline solution should contain sodium borate and boric acid. Stickier slime is great for mix-ins like foam beads.

SLIME MAKING TIPS

For fluffy slime, omit water. Replace with 2-3 cups of shaving cream.

For butter slime, knead in 2 oz of soft clay after slime is made.

For foam slime, add in 1 cup of beads when mixing or dip slime into beads.

For oobleck, use a 2:1 ratio of cornstarch to water (pumpkin pie filling).

SUPPLIES

Washable School Glue

Baking Soda

Saline Solution

Water

Foam Shaving Cream
