

WOMEN IN STEM

BUILD A:

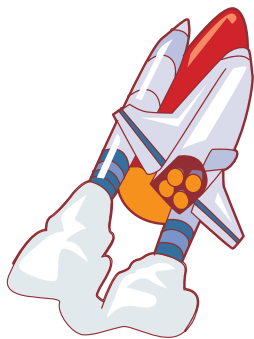

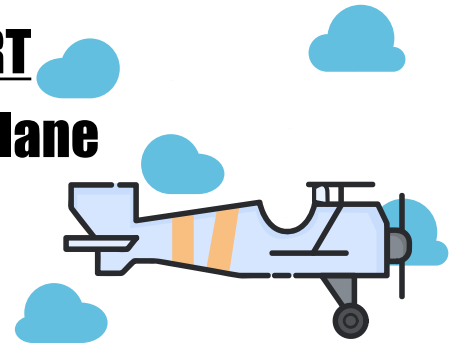

LEGO CHALLENGE

ANNING

Dinosaur skeleton using only white bricks and pieces and name it!

EARHART

An Airplane

JEMISON

A Space Shuttle

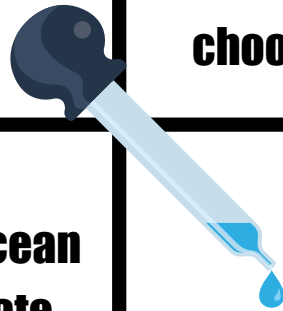

HAMILTON

Write your name in code with LEGO. Use a baseplate and choose two colors of bricks.

THARP

Create a relief map of the ocean floor. Add LEGO to a baseplate and build them up in various spots to create the relief map.

POCKELS

Try a surface tension activity using an eye dropper and a smooth, flat LEGO tile.

WU

Build the particles called quarks, that make up protons and neutrons.

GOODALL

Create a forest habitat for chimps.

THARP

Create a relief map of the ocean floor. Add LEGO to a baseplate and build them up in various spots to create the relief map.
