25 DAYS CIRCUITANS JOKES

You don't need a fancy Christmas Countdown Calendar to get the kids excited! Make your own and have fun together.

INSTRUCTIONS

STEP 1: Print out our joke template pages. Print on regular paper and color them, or print directly on colored paper.

STEP 2: Cut out the strips and glue the ends together to form links for your chain.

Markers
Scissors
Tape or
glue stick

SUPPLIES

Joke templates Colored paper

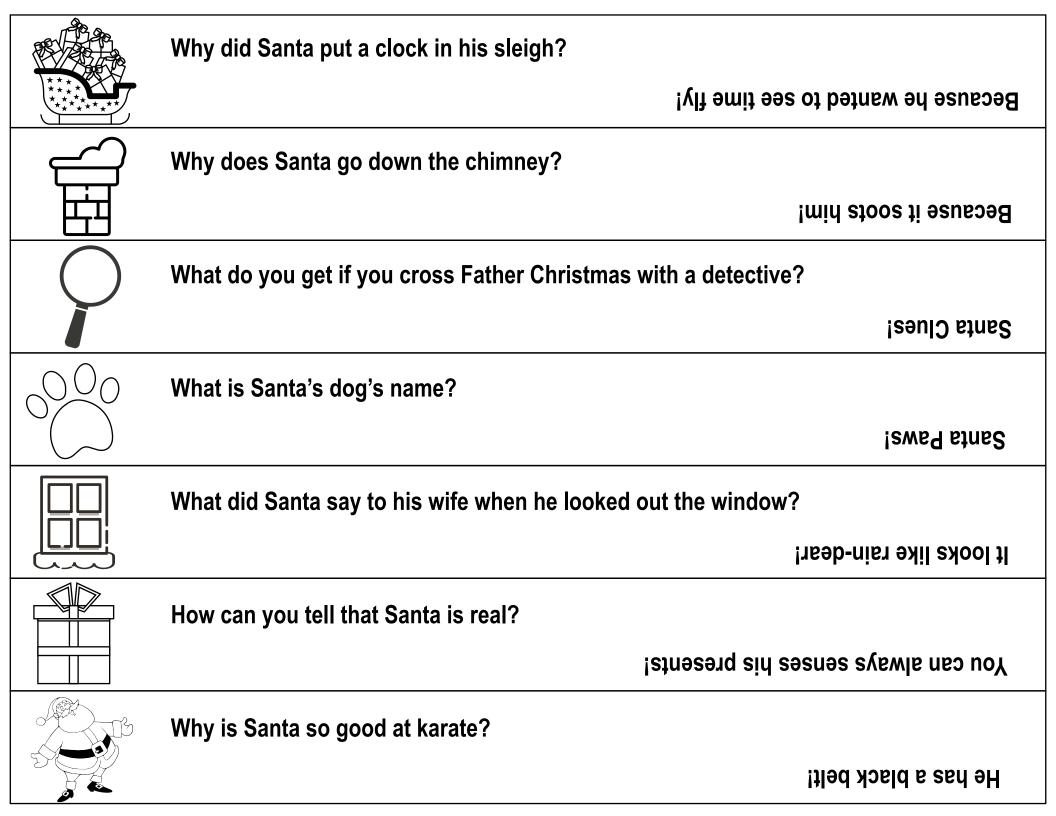

STEP 3: Kids can draw a joke a day, or can make the entire chain first and then remove one joke per day for 25 days.

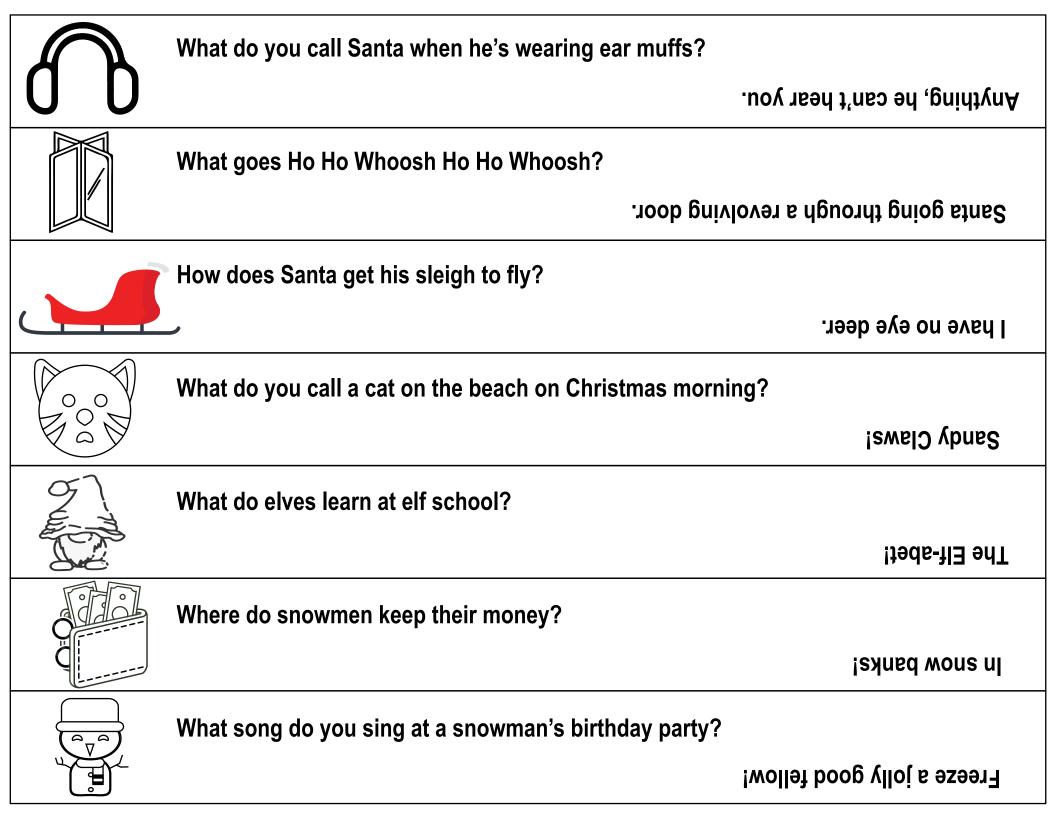

ADVENT CALENDARS

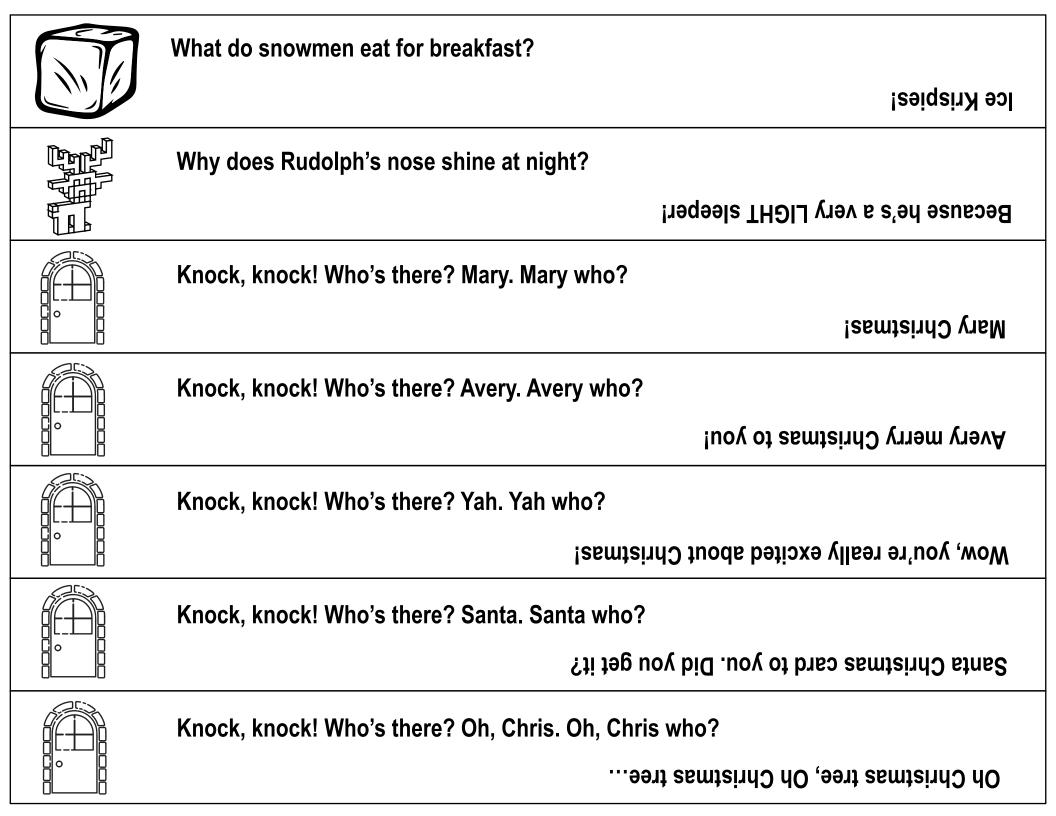

The first practice of advent calendars were from the 1800's in Germany. The Germans made chalk marks on doors or lit candles to count the days leading up to Christmas.

Advent is the time frame starting on the Sunday closest to the feast day of St. Andrew the Apostle through the following three Sundays until the anniversary of Christ's birth on December 25.

Gerhard Lang modified his mother's Advent calendars adding little doors with chocolates inside, and they became a commercial success in Germany in the 1900's.

	Knock, knock! Who's there? Olive. Olive who?
	Olive the other reindeer used to laugh and call him names
	Knock, knock! Who's there? Harry Who?
	Harry up and open your gift!
1	What did the Christmas tree say to the ornament?
\$ \$\frac{1}{2}\$	Quit hanging around!
	What is a Christmas Tree's favorite candy?

Christmas Paper Chains

1. Color in the designs. 2. Cut out the strips. 3. Make a loop with one of the strips and glue in place.
4. Pass the next strip through the first loop and repeat to create a chain.

Paper Chain Template

Create your own designs.
 Cut out the strips.
 Make a loop with one of the strips and glue in place.
 Pass the next strip through the first loop and repeat to create a chain.

Are you ready to . . .

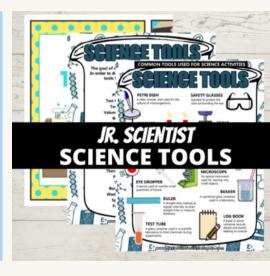

- ✓ Find manageable science, engineering, and art projects that kids love doing and are budget-friendly.
- ✓ Stop entering your email address over and over for each activity.
- ✓ Spend less time prepping with our easy instructions, templates and supply lists.
- ✓ Spend more time engaging with your students, groups or kiddos.

Meet the Little Bins for Little Hands Duo!

Hi! My name is Sarah, and this is my son Liam. He's actually 13 now. We still LOVE playing around with science and STEM at home.

I shared a simple baking soda and vinegar science activity ten years ago with him. Since then, we've been hooked! Together we have enjoyed 100s of science experiments that are low cost, easy to set up, and just plain FUN!

I always aim to provide the BEST science activities and STEM projects that fit your time and budget! We hope you enjoy the materials we have put together for you today!

~Sarah and Liam
