

JR ENGINEERS TURKEY ESCAPE

STEM CHALLENGE

Help the turkey escape before Thanksgiving! Use the paper turkey provided and build the turkey a contraption to help it get away!

CHALLENGE: Build a zip line and an escape route for your Thanksgiving turkey! Use any materials you have around the house.

SUPPLIES: Turkey printable, markers, found materials, recyclables, paper, tape, string, glue, paper clips, etc

TIME CONSTRAINT: 30 minutes or as time allows.

Step back and let your kids test their design skills, invent possible scenarios, and figure out what needs to be changed for their project.

QUESTIONS FOR REFLECTION:

What worked well and what did not work well?

If you could do this challenge again, what would you do differently?

If you could use or add a different material what would you choose?

LITTLE BINS^{inc.} FOR LITTLE HANDS

Are you ready to . . .

- ✓ Find manageable science, engineering, and art projects that kids love doing and are budget-friendly.
- ✓ Stop entering your email address over and over for each activity.
- ✓ Spend less time prepping with our easy instructions, templates and supply lists.
- ✓ Spend more time engaging with your students, groups or kiddos.

Meet the Little Bins for Little Hands Duo!

Hi! My name is Sarah, and this is my son Liam. He's actually 13 now. We still LOVE playing around with science and STEM at home.

I shared a simple baking soda and vinegar science activity ten years ago with him. Since then, we've been hooked! Together we have enjoyed 100s of science experiments that are low cost, easy to set up, and just plain FUN!

I always aim to provide the BEST science activities and STEM projects that fit your time and budget! We hope you enjoy the materials we have put together for you today!

~Sarah and Liam
